Note

Collective Intelligence(CI) seeks the following:
1. A Comprehensive view- by aggregating research across sectors.
2. A Living Landscape- This is not meant to be a static document, or a snap shot in time, but an ongoing, maintained resource.
3 . An Open Source Approach- CI will not be the final arbiters or sole authority in mapping the landscape. Collective Intelligence creates an open source intellectual capital community that continually updates, corrects and engages and disputes with
